C. Perry for the Arkansas and Cherokee that there was no such thing as a lot in the name of the Chickasaw Nation until the state of the town was approved by the secretary of the interior and that the occupants had no vested rights in the land which, by legislation, could not be taken from them.

United States Judge Townsend declined to pass on this question, but held that Congress gave the Arkansas and Cherokee that right to take and use a survey of the land, and that this right included the land within the town. He further held that the railroad company should not be enjoined from applying to the interior department to have the right of way and station grounds placed on the plat of the town, nor from proceeding to have reform appointed to conduct the improvements on its right-of-way into Arkansas.

The judge stated that the question of damages would come up later and that the best of appraisals would settle that part of it.

This bill will be appointed one member by the secretary of the interior, one by the governor of the Chickasaw nation and one by the railroad.

**Is Serious Proposition Confronting the New Country This Year.**

Guthrie, O. T., Oct. 18.—One of the most serious propositions which will confront the new country this year is in regard to the payment of school teachers. At the present time there is no fund in sight for these schools and if the teachers are not paid, the schools will be closed. It is the opinion of the teachers that the new country should be required to pay the salaries of its teachers. The teachers are now being paid by the state of Oklahoma, but this is not a permanent solution. The teachers are now being paid by the state of Oklahoma, but this is not a permanent solution. ## "QUALITY OF MERCY IS NOT STRAINED"

Admire Makes Plea for Pardon of Emmet Dalton.

### "GIVE BOY A CHANCE"

Recalls Fact That He Tried to Prevent Coffeyville Raid.

Kingfisher, O. T., Oct. 18.—Hon. Jacob V. Admire, in his paper, the Kingfisher Press Press, gives what seems to him to be a justifiable view of the question of the proposed pardoning of Emmet Dalton.

"When the Coffeyville bank robbery was undertaken about nine years ago, Emmet Dalton was a boy only about 12 years old. He accompanied the party, participated in the robbery, was seriously wounded, having prisoner, tried, paid guilty, to murder in the second degree and was sentenced to the penitentiary for life. He was induced to plead guilty by the promise that his sentence would not exceed twenty years. But this promise was not kept, and the life sentence was pronounced. It is claimed and understood that Dalton was a very real participant in this affair, and that he was not guilty of actual participation in the little which resulted in the death of four citizens of Coffeyville, as well as three of the robber gang. Secretary W. H. Grimes was United States marshal in the territory at that time, and he had knowledge of the fact that Dalton tried to prevent the raid on Coffeyville by giving notice of its purpose to the sheriff, but his notice was not received.
